

ABSTRACT

This invention relates to a genital lubricant composition and to the uses thereof. The composition comprises i) fatty acids and/or homeopathic dilutions of plant extracts and ii) a physiologically acceptable carrier. According to a preferred embodiment, the genital lubricant composition comprises about 0.05% to about 0.5% hemp seed oil and a physiologically acceptable carrier so that it forms a lotion, a cream or a gel. The composition according to the invention is particularly useful for use as a vaginal moisturizer, or as a personal lubricant for use prior or during sexual intercourse.
